

GODFREY EMMANUEL CHIGOZIE

FRONTEND DEVELOPER

Lagos, Nigeria • +234 916 169 7447 • +234 806 096 9645 • emmanuelgodfrey073@gmail.com
Portfolio • GitHub

PROFESSIONAL SUMMARY

Frontend Developer with a Bachelor of Computer Application and hands-on experience building responsive, user-focused web applications. Strong working knowledge of HTML5, CSS3, JavaScript, responsive web design, Git/GitHub, and modern frontend tooling including Vite. Experienced in taking projects from interface implementation through responsive testing, debugging, deployment, and production-focused refinement. Currently expanding into full-stack development through practical work with Node.js, Express, and MongoDB. Seeking Junior Frontend Developer, Frontend Engineer, or internship opportunities, including remote roles.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), Responsive Web Design, DOM, UI Development, Accessibility
Tools & Workflow	Git, GitHub, Vite, Browser DevTools, Vercel
Backend / Full Stack	Node.js, Express, MongoDB, REST API Fundamentals
Engineering	Responsive Testing, Cross-Browser Compatibility, Debugging, Reusable UI Patterns, Component-Based Architecture, Production QA
Professional	Problem Solving, Attention to Detail, Communication, Teamwork, Time Management, Continuous Learning

SELECTED PROJECTS

StreamFlix — Full-Stack Streaming Platform

Live · In Active Development | HTML, CSS, JavaScript, Vite, Node.js, Express, MongoDB

A publicly deployed full-stack streaming platform currently under active development. Built responsive media experiences and a scalable foundation while continuing development toward a more production-oriented architecture.

Chops — Restaurant Ordering Business Demo

Live · Completed Demo | HTML, CSS, JavaScript

A responsive restaurant ordering experience focused on menu discovery, food details, cart management, checkout, simulated payment, reservations, and mobile usability.

Live: chops-sepia.vercel.app • Source: GitHub

Real Estate Business Demo

Live · Completed Demo | React, Vite, React Router, JavaScript, CSS

A modern real-estate business website featuring property listings, detailed property pages, responsive image galleries, reusable interface patterns, and SEO-friendly property routes.

E-max — Full-Stack E-commerce Platform

In Active Development | React, Vite, JavaScript, Node.js, Express, MongoDB

A Jumia-inspired e-commerce application being developed as a full-stack project. The project combines a React frontend with an Express/MongoDB backend and is currently focused on application architecture and core functionality.

PROFESSIONAL EXPERIENCE

Self-Employed — Frontend / Web Developer

Ongoing

- Build and refine responsive websites and web interfaces for practical client and portfolio projects.
- Apply responsive design, UI implementation, Git/GitHub workflows, debugging, and deployment practices.
- Develop full-stack capability through practical projects using Node.js, Express, and MongoDB.
- Continuously improve projects through browser testing, accessibility checks, performance optimization, and production-focused refinement.

Co-Matrix Collection Company — Senior Collection Officer

Aug 2024 – Oct 2025

- Managed customer accounts and collection activities while maintaining professional communication and accurate records.
- Handled customer concerns, follow-ups, and task prioritization in a target-driven environment.

Destiny Blueprint Hotel — Supervisor

Oct 2023 – Jul 2024

- Supervised daily operations and supported service delivery across guest-facing activities.
- Responded to customer needs and coordinated staff activities.
- Contributed ideas for improving the company's website and digital presentation.

New Wave Hotel — Manager

Aug 2022 – Aug 2023

- Oversaw day-to-day hotel operations and guest experience.

- Supervised staff, planned activities, and supported budget-related responsibilities.
- Implemented marketing initiatives and handled customer concerns.

Vruksh Ecosystem Foundation — Freelance Web & Content Support

Jan 2021 – Dec 2021

- Produced informative content for national and international clients.
- Supported website maintenance and digital content updates.
- Contributed ideas for improving the organization's website and online presentation.
